### SPECIAL NOTICE

This bulletin contains the latest information on the condition of Inland Waterways within the Jacksonville District and other current data of value to navigational interests.

Navigational interests using these waterways are requested to become familiar with the contents of this bulletin as an aid in avoiding accidents and the protection of life and property.

### THE LAW

Section 4, Rivers and Harbors Act of August 8, 1917,  
40 Statute 266: 33 U.S.C. 1 states as follows:

"It shall be the duty of the Secretary of War to prescribe such regulations for the use, administration, and navigation of the navigable waters of the United States as in his judgement the public necessity may require for the protection of life and property, or of operations of the United States in channel improvement, covering all matters not specifically delegated by law to some other executive department. Such regulations shall be posted, in conspicuous and appropriate places, for the information of the public; and every person and every corporation which shall violate such regulations shall be deemed guilty of a misdemeanor and on conviction thereof in any District Court of the United States within whose territorial jurisdiction such offense may have been committed, shall be punished by a fine not exceeding \$500 or by imprisonment (in the case of a natural person) not exceeding six months, in the discretion of the court."

Pursuant to the Statutory Directive, the Secretary of the Army (successor to the Secretary of War) has prescribed regulations with respect to the use of the waterway by navigational interests. General regulations governing the use of the Intracoastal Waterways are those set forth in Section 162.65, Section 162.75, and Section 207.160, Code of Federal Regulations, Title 33. Enforcement of the above regulations is vested in the Department of the Army, Jacksonville District, Corps of Engineers, and the U.S. Coast Guard, Seventh District. Observed violations should be reported to the District Engineer, Jacksonville District, Corps of Engineers, Jacksonville, Florida, or to the Commander, Seventh Coast Guard District, Miami, Florida.

Gordon M. Butler, Jr.  
Chief, Construction-Operations  
Division
